Air Quality Forecast for the UK

Issued by the Met Office

Today: A rather cloudy day across the UK with patchy light rain at first, turning to showers in the north. Sunny spells developing for many in the late afternoon especially for southern and central parts, with this, air pollution levels will remain Low.

Tomorrow: Another day of cloudy conditions with sunny spells which helps to maintain Low levels of air pollution.

Outlook: Rather changeable conditions across the week, with most areas seeing some fine weather, especially in the south and east, maintaining Low levels of air pollution.
